"ZINNIA."

CONDITIONS OF SALE.—We give no guarantee express, or implied (and none of our representatives is authorised to vary this condition in any way), as to description, quality or productiveness or as to any other matter of any seeds, bulbs or plants we sell, and we are not in any way responsible for them or in respect of the crop or failure of the crop. All quotations are given and orders accepted only on the understanding that these conditions are agreed to.

VOORWAARDES VAN KOOP EN VERKOOP.—Ons gee geen waarborg, direk of indirek (en geen een van ons verteenwoordigers is gemagtig om die voorwaardes te verander nie), met betrekking tot beskrywing kwaliteit of produktiwiteit, of enige ander saak in verband met die saad, bolle of plante wat ons verkoop nie. Alle kwotasies word gegee en bestellings aangeneem, slegs op die voorwaarde dat met die kondisies ooreengestem word.

We have NO Flower Seeds IN BULK of any kind at present.

Importation Prohibited.

The following varieties of Flower Seeds in Packets are available :—

Acroclinium.	Flower Garden—Mixed.	Mina Lobata.
African Daisy.	Gaillardia.	Musk Plant.
Alyssum.	Geranium.	Nemesia.
Amaranthus.	Geum.	Nemophila.
Antirrhinum or Snapdragon.	Godetia.	Nicotiana Affinis.
Aquilegia or Columbine.	Gomphrena.	Nigella.
Arctotis.	Granadilla.	Pansy.
Asters.	Gypsophila Elegans.	Petunia.
Balsam.	Helichrysum.	Poppy.
Barberton Daisy.	Heliotrope.	Primula.
Begonia.	Hollyhock.	Primrose.
Calendula.	Hunnemannia.	Pyrethrum.
Calliopsis or Coreopsis.	Ice Plant.	Ranunculus.
Campanula or Canterbury Bells.	Ipomopsis.	Rosa Polyantha.
Canary Creeper or Vine.	Kochia.	Rudbeckia.
Candytuft.	Kudzu Vine.	Salvia.
Celosia or Cockscomb.	Lace Flower.	Scarlet Runner Beans.
Centaurea or Cornflower.	Lantana.	Schizanthus.
Chinese Woolflower.	Larkspur.	Statice.
Chrysanthemums.	Lavatera.	Stocks.
Cineraria.	Leptosiphon.	Stokesia.
Clarkia.	Leptosyne.	Sunflower.
Cobaea Scandens.	Linaria.	Sweet Peas.
Cyclamen.	Linum.	Sweet Sultan.
Dahlia.	Lobelia.	Sweet William.
Daisy.	Lupins.	Tritoma.
Delphinium.	Malope.	Verbena.
Dianthus or Pinks—Single.	Marguerites.	Viola.
Digitalis (Foxglove).	Marigold.	Virginian Stocks.
Dimorphotheca.	Matthiola.	Viscaria.
Eschscholtzia.	Mignonette.	Wallflower.
Everlasting Flowers.		Zinnia.

We have NO Flower Seeds in Packets at present of the undermentioned :

Adonis.	Cosmos.	Nasturtiums.
Ageratum.	Forget-me-Not.	Pentstemon.
Anchusa.	Freesia.	Phlox.
Anemone.	Gilia.	Physalis (Chinese Lantern).
Bellis Perennis (Double Daisy).	Gladiolus.	Portulaca.
Canna.	Gypsophila Rosea.	Salpiglossis.
Carnations.	Lavender.	Scabious.
Clianthus Dampieri.	Michaelmas Daisy.	Violet.
Convolvulus (Morning Glory).	Myosotis (Forget-me-Not).	Wisteria.

Be sure you obtain the South African Seed Company's "BLOOMING SEEDS," as there are others of a similar name, but they have absolutely no connection whatsoever with ours.

ESTABLISHED FOR OVER THIRTY YEARS.

MONTHLY SOWING CALENDAR for Vegetables and Flowers.

SHOWING what Seeds can be sown in each month from January to December under normal circumstances in the "Transvaal," the "Orange Free State," and the uplands of the "Cape Province." In the "Coast Districts," the "Low Country" and "Rhodesia," being a fortnight to a month in advance, sowings may be started earlier, respectively, and carried on longer. What is, however, of greater importance than a strict adherence to date, is the ability of the gardener to take advantage of climatic conditions as they occur, to sow or plant, as the case may be, all seasonable seeds immediately the favourable opportunity arrives.

Make the soil as rich as possible. Do not sow too deep, 2 or 3 times the thickness of the seed is the general rule. Keep seed-beds shaded and moist. Thin out timely and liberally. Transplant in wet or cloudy weather, and shade for a few days until the plants are thoroughly established. Keep the soil loose and fine by frequent workings.

PACKET SEEDS — VEGETABLE AND FLOWER 4/6 dozen; 6d. Packet. Post Free.

JANUARY

LIMA BEANS—Finish planting.
FRENCH BEANS—Plant largely.
RUNNER BEANS—Plant largely.
BEET—Sow largely.
BORECOLE or KALE—Sow a medium crop.
BROCCOLI—Sow largely.
BRUSSELS SPROUTS—Sow a few.
CABBAGE—Sow largely.
CARROTS—Sow a medium crop.
CAULIFLOWER—Sow largely.

CELERY—Finish sowing.
CUCUMBER—Make a final small sowing.
SWEET CORN—Finish planting.
HERBS—Sow in tins or seed-bed.
KOHL RABI—Sow largely.
LEEKS—Sow a few under shade.
LETTUCE—Sow a few where to remain.
MUSTARD and CRESS—Sow fortnightly.
ONION—Sow a few salad or green onions.
PARSLEY—Sow a few in tins.

PARSNIP—Continue sowing.
PEAS—Make a good sowing.
RADISH—Sow a few in a shady place.
RED and SAVOY CABBAGE—Sow largely.
SALSIFY and SCORZONERA—Sow a few.
SPINACH—Sow New Zealand variety and Spinach Beet.
SQUASH and VEGETABLE MARROW—Make a final small sowing.
TURNIP—Sow largely.

→ Plant out from seed-beds—Cabbage, Cauliflower, Celery, Rhubarb, Tomatoes, etc. Plant Potatoes. Protect the seed-bed from the sun by using shade frames. Keep a good supply of water. See to it that the ground does not become caked and hoe often.

FLOWERS—This being generally a very hot month, it is advisable to sow seeds in a position sheltered from the sun and hot winds or better still, in tins or boxes placed under a canvas frame. On dull days the covering should be removed altogether. Most of the following will bloom during the winter and early spring months. Sow:—

Acroclonium
*Alyssum
Amaranthus
Anchusa
Anemone
Antirrhinum
(Snapdragon)
Aquilegia
Arctotis
Asters
Aus Daisy
Balsam

Bellis Perennis
(Double Daisy)
*Calendula
Calliopsis
*Candytuft
Canterbury Bells
Carnations
*Clarkia
*Cianthus Dampieri
Cobaea
Columbine
*Cornflower

Cosmos
Delphinium
Dianthus (Pinks)
*Eschscholtzia
Forget-me-not
Foxglove
Freesias
Gaillardia
*Gypsophila
Heliotrope (in tins)
Helichrysum
Hollyhock

*Hunnemannia
*Larkspur
Leptosyne
*Linum
Linaria
Lobelia (in tins)
*Lupins
Marguerites
(Shasta Daisy)
Marigold
*Mignonette

*Nasturtium
Nemesia
*Nigella
Pansy
Pentstemon
Petunia (in tins)
Phlox
*Poppy
Portulaca
Physostegia
Pyrethrum

Salpiglossis
Scabious
Schizanthus
Stocks
Statice
*Sunflower
Sweet Sultan
Sweet William
Tritoma
Verbena
Wallflower
Zinnias

→ For the Greenhouse make sowings of the following kinds:—Cineraria, Cyclamen, Primrose, Begonia, Coleus.

FEBRUARY

BROAD BEANS—Begin planting.
RUNNER BEANS—Finish planting.
FRENCH BEANS—Finish planting.
BORECOLE or KALE—Sow largely.
BEET—Sow largely.
BROCCOLI—Finish sowing.
BRUSSELS SPROUTS—Sow largely.
CABBAGE—Continue sowing.
CARROTS—Sow a full crop.
CAULIFLOWER—Finish sowing.

ENDIVE—Make a good sowing.
HERBS—Sow in tins or seed-bed.
KOHL RABI—Sow largely.
LEEKS—Sow a few.
LETTUCE—Continue sowing where to remain.
MUSTARD and CRESS—Sow fortnightly.
ONION—Sow largely for salad and for bulbing.

PARSLEY—Sow largely.
PARSNIP—Make a good sowing.
PEAS—Sow largely.
RADISH—Sow for a succession.
RED and SAVOY CABBAGE—Sow a medium crop.
SALSIFY and SCORZONERA—Sow a few.
SPINACH and SPINACH BEET—Sow a few.
TURNIPS—Sow largely.

→ Plant out from seed-beds—Cabbage, Cauliflower, Celery, Leeks, Tomatoes, etc. Plant Potatoes. Do not forget to protect the seed-beds by using canvas shades, and keep up a good supply of water. See to it that the ground does not become caked and hoe frequently.

FLOWERS—This is the first month of autumn, and although the weather during the day is usually hot, the nights are cooler, and any favourable conditions of temperature should be taken advantage of for making a full sowing of seeds of plants marked as seasonable. Make also good use of your canvas frames. Sow:—

Acroclonium
Adonis
Ageratum
*Alyssum
Amaranthus
Anemone
Anchusa
Antirrhinum
(Snapdragon)
Aquilegia
Arctotis
Bellis Perennis
(Double Daisy)

*Calendula
Calliopsis
*Candytuft
Canterbury Bells
Carnations
*Clarkia
Cobaea
Convolvulus
*Cornflower
Delphinium
Dianthus (Pinks)
Dimorphotheca

*Eschscholtzia
Forget-me-not
Foxglove
Gaillardia
Geum
Godetia
Golden Feather
*Gypsophila
Helichrysum
Heliotrope (in tins)
Hollyhock
*Hunnemannia

Ipomopsis
*Larkspur
Linaria
*Linum
Lobelia (in tins)
*Lupins
Marguerites
(Shasta Daisy)
Marigold
*Mignonette
*Nasturtium
Nemesia

Nicotiana
Nigella
Pansy
Pentstemon
Petunia (in tins)
Phlox
*Poppy
Portulaca
Physostegia
Ranunculus
Salpiglossis
Scabious

Schizanthus
Stocks
*Sunflower
Sweet Peas
Sweet Sultan
Sweet William
Tritoma
Verbena
*Violets (in tins)
Viscaria
Wallflower

→ For the Greenhouse make sowings of Cineraria and Primula. If it rains advantage must be taken to transplant any seedlings ready from previous sowings. Keep the surface of the soil well mulched.

THE SOUTH AFRICAN SEED CO's.

P.O. BOX 3880.

"BLOOMING SEEDS."

JOHANNESBURG.

Flowers marked (*) do not easily transplant, or, being very hardy, should be sown where plants are intended to remain. Thin out at an early stage; do not allow overcrowding. All other seeds can be sown in tins or shaded beds, pricked out into other tins, and finally transplanted to the open ground during suitable weather.

MARCE

BET—Make a good sowing.
BORECOLE or KALE—Sow a medium crop.
BROAD BEANS—Sow a few.
BRUSSELS SPROUTS—Finish sowing.
CABBAGE—Finish sowing.
CARROTS—Sow for a succession crop.
ENDIVE—Sow largely.

HERBS—Finish sowing.
KOHL RABI—Make a medium sowing.
LEEKS—Sow largely.
LETTUCE—Continue sowing.
MUSTARD and CRESS—Sow fortnightly.
ONION—Sow largely for salad and for bulbing.

PARSLEY—Make a good sowing.
PARSNIP—Sow for succession.
PEAS—Sow a medium crop.
RADISH—Sow for a succession.
RED and SAVOY CABBAGE—Sow a few.
SPINACH—Sow largely.
TURNIP—Sow largely.

→ Plant out from seed-beds—Broccoli, Borecole, Cabbage, Cauliflower, Celery, Leeks, Parsley, etc.

FLOWERS—The nights are now becoming colder, although the days may be warm, and all the seeds recommended should be sown as soon as possible, as they germinate much quicker when the soil is still warm, and give the seedlings a chance to make a bold display. Many of the seeds named can be sown out of doors, but any that are tender are better sown under the canvas shade, even now, as they are so much better under control. Sow :—

Acroclinium	Calliopsis	Forget-me-not	*Hunneinannia	Nemesia	Salpiglossis
Adonis	*Candytuft	Foxglove	*Larkspur	Nicotiana	Scabious
Ageratum	Canterbury Bells	Freesias	Linaria	*Nigella	Schizanthus
*Alyssum	Carnation	Gaillardia	Lobelia (in tins)	Pansy	Stocks
Anemone	Chrysanthemum	Geum	*Lupinus	Pentstemon	Sweet Peas
Antirrhinum	*Clarkia	Godetia	Marguerites	Petunia (in tins)	Sweet William
(Snapdragon)	*Cornflower	Golden Feather	(Shasta Daisy)	Phlox	Tritoma
Aquilegia	Delphinium	*Gypsophila	Marigold	Physostegia	Verbena
Bellis Perennis	Dianthus (Pinks)	Helichrysum	*Mignonette	*Poppy	Violets (in tins)
(Double Daisy)	Dimorphotheca	Heliotrope (in tins)	Musk	Primula (in tins)	Virginian Stocks
*Calendula	*Eschscholtzia	Hollyhock	*Nasturtium	Ranunculus	*Viscaria
					Wallflower

→ Thin out and transplant.

APRIL

BORECOLE or KALE—Finish sowing.
BROAD BEANS—Make a good sowing.
BET—Finish sowing.
ENDIVE—Finish sowing.
LEEKS—Finish sowing.

LETTUCE—Sow for a succession.
MUSTARD and CRESS—Sow fortnightly.
ONION—Finish sowing a few.
PARSLEY—Finish sowing.
PEAS—Finish Sowing.

PARSNIP—Finish sowing.
RADISH—Sow for a succession.
SPINACH—Sow a medium crop.
TURNIP—Finish sowing.

→ Plant out Borecole, Cabbage, Celery, Leeks, Onions, Parsley, etc.

FLOWERS—This is the last month of autumn, and, if not already done, sowing should not be further delayed, as the cold weather, which will soon be upon us, will retard their growth. The canvas frame is now not only useful for shading purposes, but is also a protection against frosts; remove the cover entirely during the day when it is fine, replacing it at night. Sow :—

Acroclinium	*Calendula	*Eschscholtzia	*Hunneinannia	Pansy	Sweet Peas
Adonis	Calliopsis	Forget-me-not	*Larkspur	Pentstemon	Sweet William
Ageratum	*Candytuft	Foxglove	Linaria	Petunia (in tins)	Verbena
*Alyssum	Canterbury Bells	Freesias	*Lupinus	Phlox	Violets (in tins)
Anemone	Carnation	Gaillardia	Marguerites	*Poppy	Virginian Stocks
Antirrhinum	*Clarkia	Godetia	(Shasta Daisy)	Primula (in tins)	Wallflower
(Snapdragon)	*Cornflower	Golden Feather	Marigold	Ranunculus	
Aquilegia	Delphinium	*Gypsophila	*Mignonette	Salpiglossis	
Bellis Perennis	Dianthus (Pinks)	Heliotrope (in tins)	*Nasturtium	Scabious	
(Double Daisy)	Dimorphotheca	Hollyhock	Nicotiana	Stocks	

→ Continue to plant out seedlings from previous sowings.

MAY

BROAD BEANS—Make a good sowing.
LETTUCE—Sow under protection.

MUSTARD and CRESS—Sow fortnightly.
RADISH—Sow a few in a sunny spot.

SPINACH—Sow a few.

→ Divide and replant Herbs, Horse Radish, etc. Transplant Cabbage, Leeks, Onions, Parsley, etc. Dig, manure and trench your garden. Destroy all refuse from past crops.

FLOWERS—Although we are entering the cold season, many of the hardier varieties may still be sown to keep up a succession of bloom. As early frost must be expected this month, it is advisable to sow in a glass or a canvas frame placed in a warm position. Very hardy and strong-growing plants can, however, be sown out of doors. Sow :—

*Alyssum	*Calendula	Delphinium	*Gypsophila	*Nasturtium	Primula (in tins)
Antirrhinum	Calliopsis	Dianthus (Pinks)	*Larkspur	Nicotiana	Sweet Peas
(Snapdragon)	*Candytuft	Dimorphotheca	*Lupinus	Pansy	Sweet William
Aquilegia	Canterbury Bells	*Eschscholtzia	Marguerites	Petunia (in tins)	Stocks
Bellis Perennis	Carnation	Forget-me-not	(Shasta Daisy)	Phlox	Verbena
(Double Daisy)	*Cornflower	Foxglove	*Mignonette	*Poppy	Wallflower

BROAD BEANS—Sow a medium crop.
LETTUCE—Sow a few under protection.

MUSTARD and CRESS—Continue sowing.
RADISH—Sow a few in a sunny spot.

SPINACH—Sow a few in a warm situation.

→ Make sowings under protection. Plant Herbs, Onions, Leeks, etc. Have a thorough clean-up of your garden, and dig manure and trench same.

FLOWERS—As this is normally a very cold month and no warmth in the soil, only those possessing a glass house, a hot-bed or a cold frame, should attempt to raise seeds except the very hardiest sorts. The garden should be thoroughly manured and dug over for the coming season. Sow, under protection :—

Antirrhinum	*Calendula	Delphinium	Hollyhock	*Lupinus	Sweet Peas
(Snapdragon)	*Candytuft	*Eschscholtzia	*Larkspur	Pansy	Verbena
Bellis Perennis	*Cornflower				
(Double Daisy)					

→ Keep the seed-beds covered at night with straw matting or bags, or give some other protection.

Packet Seeds—Vegetable and Flower.

4/6 dozen; 6d. per packet. Post Free.

STOREKEEPERS: SPECIAL PRICES QUOTED ON APPLICATION.

THE SOUTH AFRICAN SEED CO'S.

P. O. BOX 3880.

"BLOOMING SEEDS."

JOHANNESBURG.

Flowers marked (*) do not easily transplant, or, being very hardy, should be sown where plants are intended to remain. Thin out at an early stage; do not allow overcrowding. All other seeds can be sown in tins or shaded beds, pricked out into other tins, and finally transplanted to the open ground during suitable weather.

JULY

BROAD BEANS—Sow a medium crop.
CABBAGE—Sow a few.
LEEKs—Sow a few under protection.
LETTUCE—Sow a few under protection.

MUSTARD and CRESS—Sow fortnightly.
PARSLEY—Sow a few in tins.
PEAS—Sow largely.
RADISH—Sow a few in a sunny spot.

RHUBARB—Sow a few in a frame.
SPINACH—Sow a few in a warm situation.
TOMATOES—Sow a few in a frame.
TURNIP—Sow a few.

→ Protect your seed-beds by canvas shades. Plant out Leeks, etc.

FLOWERS—As the weather will not be favourable for sowing out of doors for another month, it will be advisable to do all preparatory work possible in the garden to receive new plants next month and later. The following may be sown if protection can be given :—

Antirrhinum	Carnation	Golden Feather	Marguerite	Petunia (in tins)	Sweet Peas
(Snapdragon)	Delphinium	Hollyhock	(Shasta Daisy)	Pentstemon	*Sweet Sultan
*Candytuft	Dianthus (Pinks)	*Hunnemannia	Marigold	Phlox	Sweet William
Canna	*Eschscholtzia	*Larkspur	Nicotiana	Salpiglossis	Violets (in tins)
Canterbury Bells	Foxglove	Lobelia (in tins)	Pansy	Salvia	Verbena

→ Keep the seed-beds covered at night with straw matting or bags, or give some other protection.

AUGUST

ARTICHOKE—Sow a few in a frame.
BROAD BEANS—Finish sowing a few.
BEE—Make a good sowing.
FRENCH BEANS—A few may be sown towards the end of the month in a warm locality.
CABBAGE—Sow a medium crop.
CAPRICUM—Sow a few in a frame.
CAPE GOOSEBERRY—Sow a few.
CARROT—Sow a medium crop.
CELERY—Make a small sowing in tins and protect carefully.
CHERVIL—Sow a few.

CHICORY—Sow a medium crop.
CUCUMBER—Make a small sowing in a frame for planting out early.
ENDIVE—Sow a few.
HERBS—Sow largely all kinds under protection.
KOHL RABI—Sow a few.
LEEKs—Sow a medium crop.
LETTUCE—Sow largely under protection.
MELONS—Sow a few along with Cucumbers in a frame.
MUSTARD and CRESS—Sow fortnightly.
ONION—Sow largely.
PARSLEY—Sow a small crop.

PARSNIP—Make a good sowing.
PEAS—Sow largely.
PUMPKIN—Sow a few in a frame.
RADISH—Sow largely.
RHUBARB—Make a small sowing.
SALSIFY and SCORZONERA—Sow a few.
SPINACH—Sow largely.
SQUASH and VEGETABLE MARROW—Sow a few in a frame.
SWISS CHARD or SPINACH BEET—Sow a few.
TOMATO—Sow in tins under protection.
TURNIP—Make a good sowing.

→ Make good use of your shade frames for raising all kinds of Vegetables and Salads which are inconvenient to transplant and cannot therefore be raised in tins or boxes. Plant Potatoes. Transplant Onions, Rhubarb, Leeks, etc.

FLOWERS—This month ushers in the spring season, and the increasing warmth will greatly accelerate growth. If weather permits we advise a full sowing of all hardy annuals in open border, and more tender varieties in tins under protection. Sow :—

Acroclinium	Carnation	*Eschscholtzia	Hollyhock	*Mignonette	Salpiglossis
Adonis	Celosia	Forget-me-not	*Hunnemannia	Mina Lobata	Salvia
Ageratum	Chinese Lantern	Foxglove	Ice Plant	*Nasturtium	Scabious
*Alyssum	Chrysanthemum	Freessias	Ipomopsis	Nemesia	Schizanthus
Antirrhinum	*Clarkia	Gaillardia	Kudzu Vine	Nicotiana	Statice
Aquilegia	Cobaea	Gerbera	Kochia	*Nigella	*Sunflower
Arctotis	Convolvulus	Geum	Lantana	*Ornamental Grasses	Sweet Peas
Aster	*Cornflower	Gilia	*Larkspur	Pansy	*Sweet Sultan
Barborton Daisy	Cosmos	Gladiolus	Leptosyne	Pentstemon	Sweet William
Bellis Prennis	Cockscomb	Godetia	Linaria	Petunia (in tins)	Tahoka Daisy
(Double Daisy)	Dahlia	Golden Feather	*Linum	Phlox	Verbena
*Calendula	Delphinium	Granadilla	Lobelia (in tins)	*Poppy	*Viscaria
Calliopsis	Dianthus (Pinks)	Gypsophila	*Lupins	Portulaca	Violets (in tins)
Canary Vine	Didiscus	Helichrysum	Marguerite	Pyrethrum	Wistaria
*Candytuft	Dimorphotheca	*Heliotrope (in tins)	Marigold		

→ For the Greenhouse make sowings of Geranium, Coleus, Primula, etc. Protect your seed-beds against frost and high winds.

SEPTEMBER

ARTICHOKE—Sow largely.
ASPARAGUS—Sow largely.
FRENCH BEANS—Sow a medium crop.
LIMA BEANS—Sow a medium crop.
RUNNER BEANS—Sow a medium crop.
BEE—Make a good sowing.
CAPE GOOSEBERRY—Sow largely.
CAPRICUM—Sow largely in tins; protect.
CARROT—Sow a full crop.
CELERY—Sow largely in tins.
CHICORY—Sow a full crop.
SWEET CORN or MEALIES—Sow a few late in the month.

CUCUMBER—Sow a medium crop; protect.
EGG PLANT—Make a small sowing in frame.
ENDIVE—Make a small sowing.
HERBS—Sow all kinds.
KOHL RABI—Sow a medium crop.
LEEKs—Sow a full crop.
LETTUCE—Sow largely.
MELONS—Sow a medium crop and protect.
MUSTARD and CRESS—Sow fortnightly.
OKRA—Sow a few.
ONION—Make a good sowing.
PARSLEY—Sow a full crop.
PARSNIP—Sow a medium crop.

PUMPKIN—Sow a few in a protected place.
PEAS—A few may still be chanced in a cool and shady place.
RADISH—Sow for a succession.
RHUBARB—Sow largely.
SALSIFY and SCORZONERA—Sow largely.
SPINACH—Sow largely.
SQUASH and VEGETABLE MARROW—Make a small sowing in a protected place.
SWISS CHARD or SPINACH BEET—Sow largely.
TOMATO—Sow largely.
TURNIP—Sow a medium crop.

→ Make good use of canvas shades. Water and hoe frequently. Transplant Celery, Rhubarb, Leeks, Parsley, etc.

FLOWERS—This is considered the best month to sow half-hardy annuals as frosts by this time are practically over. Thin out any seedlings which may have germinated too thickly. Mulch the surface of the soil with manure, which will greatly prolong the blooming season of annuals, as it will keep the soil cool and retain the moisture. Sow :—

Acroclinium	*Candytuft	Dimorphotheca	Helichrysum	Marigold	Salpiglossis
Adonis	Canna	*Eschscholtzia	Hollyhock	Mina Lobata	Salvia
Ageratum	Carnation	Forget-me-not	*Hunnemannia	*Mignonette	Scabious
*Alyssum	Celosia	Foxglove	Ice Plant	*Nasturtium	Schizanthus
Amaranthus	Chinese Lantern	Freessias	Ipomea	Nemophila	Statice
Anchusa	Chrysanthemum	Geranium	Jap Kudzu Vine	Nemesia	*Sunflower
Antirrhinum	*Clarkia	Gebera	Kochia	Nicotiana	Sweet Peas
Aquilegia	*Cianthus	Geum	Lantana	*Nigella	*Sweet Sultan
Arctotis	Cobaea	Gladiolus	*Larkspur	*Ornamental Grasses	Sweet William
Asters	Convolvulus	Gilia	Leptosyne	Pansy	Tahoka Daisy
Balsam	*Cornflower	Godetia	Linaria	Pentstemon	Verbena
Barborton Daisy	Cosmos	Golden Feather	*Linum	Petunia (in tins)	Violets (in tins)
Blue Lace Flower	Cockscomb	Gypsophila	Lobelia (in tins)	Phlox	Wistaria
*Calendula	Dahlia	Granadilla	*Lupins	*Poppy	*Viscaria
Calliopsis	Delphinium	*Heliotrope (in tins)	Malope	Portulaca	Zinnia
Canary Creeper	Dianthus (Pinks)		Marguerite (Shasta Daisy)	Pyrethrum	
				Rudbeckia	

→ For the Greenhouse make sowings of Cyclamen, Begonia, Geranium, Coleus, etc.

THE SOUTH AFRICAN SEED CO's.
P.O. BOX 3880. "BLOOMING SEEDS." JOHANNESBURG.

Flowers marked (*) do not easily transplant, or, being very hardy, should be sown where plants are intended to remain. Thin out at an early stage; do not allow overcrowding. All other seeds can be sown in tins or shaded beds, pricked out into other tins, and finally transplanted to the open ground during suitable weather.

OCTOBER

ARTICHOKE—Sow a medium crop.
 ASPARAGUS—Sow a medium crop.
 LIMA BEANS—Sow largely.
 FRENCH BEANS—Sow largely.
 RUNNER BEANS—Sow largely.
 BEET—Sow a full crop.
 CAPE GOOSEBERRY—Sow a full crop.
 CAPSICUM—Sow largely in tins.
 CARROT—Make a good sowing.
 CELERY—Continue sowing in tins.
 CHERVIL—Continue sowing.
 CHICORY—Make a good sowing.

SWEET CORN or MEALIES—Sow largely.
 CUCUMBER—Sow largely.
 EGG PLANT—Sow largely in tins.
 HERBS—Sow all varieties.
 KOHL RABI—Sow a medium crop.
 LEEK—Finish sowing.
 LETTUCE—Sow a medium crop where to remain.
 MELONS—Sow largely.
 MUSTARD and CRESS—Sow fortnightly.
 OKRA—Sow largely.
 ONION—Finish sowing.

PARSLEY—Sow a few.
 PUMPKIN—Make a good sowing.
 RADISH—Sow for a continuation.
 RHUBARB—Sow a medium crop.
 SALSIFY & SCROZONERA—Finish sowing.
 SPINACH—Finish sowing ordinary and start sowing New Zealand variety.
 SQUASH and VEGETABLE MARROW—Sow largely.
 SWISS CHARD or SPINACH BEET—Sow largely.
 TOMATO—Sow largely.

→ Give plenty of shade to the seed-beds. Water and hoe frequently. Plant out from seed-beds—Cucumber, Melons, Marrows, Tomatoes Parsley, Onions, etc.

FLOWERS.—The summer heat will soon be upon us, but if favoured with some good rains we can still sow most of the hardy annua with good prospects of success. Sow all descriptions of flower seeds as recommended for SEPTEMBER.

→ For the Greenhouse make sowings of the following kinds:—Cyclamen, Cineraria, Primrose, Begonia, Coleus, Geranium, etc. Give plenty of shade to the seed-beds by using shade frames, etc., and water liberally in dry weather.

NOVEMBER

ARTICHOKE—Sow a few in tins.
 ASPARAGUS—Sow a few.
 LIMA BEANS—Sow largely.
 FRENCH BEANS—Sow largely.
 RUNNER BEANS—Sow largely.
 BEET—Sow a medium crop.
 BROCCOLI—Sow a medium crop.
 CABBAGE—Sow a medium crop.
 CAPE GOOSEBERRY—Sow a few.
 CAPSICUM—Finish sowing.
 CARROT—Sow a medium crop.

CAULIFLOWER—Sow a medium crop.
 CELERY—Sow a few in tins.
 CHERVIL—Finish sowing.
 SWEET CORN or MEALIES—Sow largely.
 CUCUMBER—Sow a full crop.
 HERBS—Sow all kinds.
 KOHL RABI—Sow a few.
 LETTUCE—Sow a medium crop where to remain.
 MELONS—Finish sowing.
 MUSTARD and CRESS—Sow fortnightly.
 OKRA—Finish sowing.

ONION—A few salad onions may be sown.
 PARSLEY—Sow a few.
 PUMPKIN—Sow largely.
 RADISH—Sow for succession in a shady place
 RED and SAVOY CABBAGE—Sow a few.
 RHUBARB—Finish sowing.
 SPINACH—Sow New Zealand variety.
 SPINACH BEET or SWISS CHARD—Sow largely.
 SQUASH and VEGETABLE MARROW—Sow largely.
 TOMATO—Sow for a succession.

→ Give plenty of shade to the seed-beds. Water and hoe frequently, so that the ground does not become caked. Plant out from seed-beds—Capsicum, Egg Plant, Parsley, Tomatoes, etc.

FLOWERS.—Only a limited amount of sowing can be done this month, but all the following will do well provided they are kept well watered. If sown in the open ground, cover the soil with a little stable litter to keep it cool. Germination will be more certain if this is done. Sow:—

Adonis	*Calliopsis	Dimorphotheca	*Ipomea	Mina Lobata	Salpiglossis
*Ageratum	Carnation	*Eschscholtzia	Kochia	*Nasturtium	Salvia
*Alyssum	Celosia	Foxglove	Lantana	Nemesia	Scabiosa
Amaranthus	Chrysanthemum	Gaillardia	*Larkspur	*Nigella	*Sunflower
Anchusa	*Cianthus	Geranium	Leptosyne	Pansy	*Sweet Sultan
Antirrhinum	Cockscomb	Gerbera	*Linum	Pentstemon	Sweet William
(Snapdragon)	*Convolvulus	Gilia	Lobelia (in tins)	Petunia (in tins)	Tahoka Daisy
Aquilegia	*Cornflower	*Godetia	*Lupins	Phlox	Verbena
Asters	*Cosmos	*Gypsophila	Marguerite	*Poppy	Violet (in tins)
Balsam	Dahlia	Heliotrope (in tins)	(Shasta Daisy)	Portulaca	*Viscaria
Barborton Daisy	Delphinium	Hollyhock	Marigold	Primula	Zinnia
*Calendula	Dianthus (Pinks)	Ice Plant	*Mignonette	Pyrethrum	

→ For the Greenhouse make sowing of Begonia, Cineraria, Coleus, Cyclamen, Primula, Geranium, etc. Give plenty of shade to the seed-beds by using shade frames, etc., and water liberally in dry weather.

DECEMBER

ARTICHOKE—Finish Sowing.
 ASPARAGUS—Finish sowing.
 FRENCH BEANS—Sow largely.
 RUNNER BEANS—Sow largely.
 LIMA BEANS—Sow a medium crop.
 BEET—Sow for a succession.
 BROCCOLI—Sow largely.
 CABBAGE—Sow largely.
 CARROT—Continue sowing a few.
 CAULIFLOWER—Sow a full crop.

CELERY—Sow a few in tins.
 SWEET CORN or MEALIES—Continue sowing.
 CUCUMBER—Sow a medium crop.
 HERBS—Sow all kinds.
 KOHL RABI—Sow a few.
 LETTUCE—Sow a few where to remain.
 MUSTARD and CRESS—Sow fortnightly.
 PARSLEY—Sow a few.
 PARSNIP—Sow largely.

PUMPKIN—Finish sowing.
 RADISH—Sow a few in a shady place.
 RED and SAVOY CABBAGE—Sow a few.
 SPINACH—Sow New Zealand variety.
 SPINACH BEET or SWISS CHARD—Sow a medium crop.
 SQUASH and VEGETABLE MARROW—Sow a medium crop.
 TOMATO—Make a final sowing.

→ Give plenty of shade to the seed-beds. Water and hoe frequently, so that the ground does not become caked. Plant out from seed-beds—Cabbage, Cauliflower, Capsicum, Egg Plant, Tomatoes, Parsley, etc.

FLOWERS.—Generally a hot and dry month, during which scarcely anything in the way of sowing can be done unless there is rain Water freely if necessary. If not previously done, give the ground a good mulching. This retards evaporation from the soil, besides stimulating the plants and keeping the roots cool. Sow:—

Adonis	Barborton Daisy	Delphinium	*Gypsophila	*Nigella	Stocks
Ageratum	*Calendula	Dianthus (Pinks)	Hollyhock	Pentstemon	*Sunflower
*Alyssum	*Calliopsis	*Eschscholtzia	Ice Plant	Petunia (in tins)	*Sweet Sultan
Amaranthus	Chrysanthemum	Foxglove	*Kochia	*Poppy	Sweet William
Antirrhinum	*Clarkia	Freesia	Larkspur	Phlox	Tahoka Daisy
(Snapdragon)	*Cianthus	Gaillardia	Lobelia (in tins)	*Portulaca	Verbena
Aquilegia	Cockscomb	Gerbera	*Lupins	Pyrethrum	Zinnia
Asters	*Convolvulus	Geranium	Marigold	Ranunculus	
Aus Daisy	*Cornflower	*Godetia	*Mignonette	Salpiglossis	
Balsam	*Cosmos	Golden Feather	*Nasturtium	Scabiosa	

→ For the Greenhouse make sowings of Begonia, Cineraria, Coleus, Cyclamen, Primula, etc. Give plenty of shade to the seed-beds by using shade frames, and water liberally in dry weather.

PACKET SEEDS — VEGETABLE AND FLOWER

4/6 dozen ; 6d. Packet. Post free.

STOREKEEPERS: SPECIAL PRICES QUOTED ON APPLICATION.

THE SOUTH AFRICAN SEED CO's.

P. O. BOX 3380.

"BLOOMING SEEDS."

JOHANNESBURG.

Flowers marked (*) do not easily transplant, or, being very hardy, should be sown where plants are intended to remain. Thin out at an early stage; do not allow overcrowding. All other seeds can be sown in tins or shaded beds, pricked out into other tins, and finally transplanted to the open ground during suitable weather.

N.B.—Our Packet Seeds, a large proportion of which are necessarily imported, cannot be sent by Agricultural Parcel Post.

VETCHES OR TARES—WIKKE

A valuable Winter Legume which deserves greater attention from farmers.

CLIMATIC AND SOIL REQUIREMENTS.

The Vetch gives best results in the cooler regions, and where farmers have not met with success with such legumes as soya beans and field peas they should give vetch every consideration, as it might prove the means of solving the great legume problem which confronts many agriculturists at the present time.

Vetch is especially well adapted to sandy and sandy loam soils and also succeeds well on the heavier types, provided they are well drained. The largest yields of seed are generally secured on medium loam soils that are moderately well supplied with organic matter.

AMOUNT OF SEED TO SOW.

When Vetch is being sown on the land for the first time and it is intended that the crop shall be used for soil improvement, for hay or pasture, from 30 lbs. to 40 lbs. of Vetch seed should be sown per acre.

The quantity mentioned is the amount used when the seed is broadcasted or sown by means of a seed drill. When planted in rows, 10 lbs. to 15 lbs. of seed should prove sufficient.

When put in together with a winter cereal, such as oats or rye, then the following might be used:—

Vetch 15 lbs. Oats or Rye 50 lbs.

If the mixture is intended for heavy grazing, then the quantities of seed should be increased by about 50 per cent.

Plant 40 lbs. per Acre

	PRICES:	Sold Out.
Hairy (vicia villosa)	5d.	per lb.
Spring (vicia sativa)	5d.	"
Winter (vicia sativa)	5d.	"
Purple (vicia atropurpurea)	1/3	"

LUCERNE—LUSERN

Distress caused by DROUGHT might be obviated by the conservation of feed.

That Lucerne has great possibilities in connection with stock raising by virtue of its adaptability and high yield of nutritious feed, well supplied with minerals like calcium and phosphorus so necessary for animals, is generally accepted. In this country of uncertain climate there must always be a ready market for lucerne, and with the market now offering overseas for animal products, there is all the more reason for its cultivation and utilisation on the farm.

ONLY THE BEST EXPORT QUALITIES STOCKED.

Plant LUCERNE and other suitable crops and insure against the inevitable recurrence of DROUGHT.

PRICES:

Provence	1/2 per lb.
Hunter River	1/4 do.
Chinese	1/9 do.

Special Prices Quoted for Large Quantities. Plant 20 lbs. per acre.
